

Case Management Experience

Samara is a passionate and highly experienced nurse. Samara is excellent at working with children, young adults and adults with complex, long-term disabilities. Samara has successfully managed the planning, organisation and delivery of care for clients with complex traumas. This has included teams working with children and young people with cerebral palsy, brain injury, neurological disorders, syndromes and autism, spinal cord injuries

Throughout her career, Samara has supported clients in achieving optimal standards of independence and quality of life via impactful advocacy and the recruitment and management of high-performing, multi-disciplinary teams. This has included collaborating with and coordinating therapists, care staff, education professionals and voluntary organisations. Samara is a dedicated, empathetic and proactive individual with strong emotional intelligence and a wealth of knowledge. In addition to her work as a case manager, Samara also engages in a wide variety of continuing professional development, ensuring her work is always informed by the latest innovations and best practices. She maintains her clinical knowledge with regular nursing bank shifts at her local hospital.

Professional Summary

Samara is a dedicated Nurse with almost a decade of post qualification experience. She began her career at the Royal National Orthopaedics Hospital NHS trust, working as a Staff Nurse within Paediatric and Adolescent Wards. Within this role, she held responsibility for caring for acutely ill children and young adults, planned and carried out spinal injury and complex orthopaedic rehabilitation, pain management, safeguarding, providing post operative care and caring for patients with complex needs including cerebral palsy, global developmental delay and genetic and chromosomal conditions.

From 2016 to 2020, Samara worked within University College London Hospitals NHS Trust, progressing to a senior role within the Paediatric Emergency Department in 2018. In addition to her previous duties, Samara gained extensive experience in resuscitation, wound & burn care, triage, management of Child & Adolescent Mental Health Services (CAMHS) patients and clinical leadership.

As a Case Manager for Harrison Associates, Samara has applied her skills, knowledge and expertise to coordinate rehab care and support for children and adults. She specialises in leading the end-to-end rehabilitation of children and adult clients with complex neurological injuries and conditions, including acquired brain injury. She further leverages her wealth of clinical expertise to drive optimal client outcomes via conducting thorough assessments, identifying short and long-term requirements and leading the development and delivery of aligned care plans.
