

Professional Experience

Angela is a seasoned Senior Nurse with two decades of experience, including extensive leadership and management. Her career spans a diverse range of clinical areas, with a particular focus on acute & emergency medicine. Throughout her career, Angela has driven the delivery of the best possible clinical outcomes via spearheading the development and delivery of impactful transformation strategies, championing patient-centred care and evidence-based practices. She has also demonstrated her skill in assessing and managing a diverse range of patient needs, from minor illnesses and injuries to complex long-term conditions. Angela's insights are informed by both ground-level patient care and rigorous academic research.

Angela is a nationally recognised leader in her field, having presented at nursing conferences across the UK and internationally. She has also co-chaired a national ambulance and emergency care working group for all UK ambulance services. Angela is a Guest Lecturer at The University of Sheffield.

As an Expert Witness, Angela's expansive experience provides a robust foundation to deliver informed, insightful and credible testimony. She is fully trained in the Civil Procedures Rules, including relevant revisions as they arise, and regularly undertakes a variety of clinical and medico-legal training.
