

Professional Experience

Vikki is an accomplished Occupational Therapist with almost two decades of experience in managing the assessment and treatment of individuals with acquired brain injury and complex needs arising from physical and cognitive impairments. This includes 16 years of case management experience, working with adults and children with brain injury, spinal injury, cerebral palsy and neurological conditions. She is equipped with a comprehensive knowledge of relevant assessments, therapeutic interventions, goal setting, rehabilitation and risk management. Vikki has extensive experience driving optimal standards of service quality and efficiency via effective clinical leadership, training and supervision. She is also experienced in managing domiciliary care services. Vikki is fully trained in Civil Procedure Rules and continually expands her skills and expertise through a range of CPD activities. She is adept in producing rigorous, impartial and evidence-based reports.
